NORTHWEST ATLANTIC FISHERIES ORGANIZATION

Scientific Council Studies
Number 8

Miscellaneous Selected Papers

Dartmouth, Canada
April, 1985

Foreword

In accordance with the mandate of the Scientific Council of NAFO to disseminate information of topical interest to the scientific community, the papers in this issue of *Studies* were nominated for publication by the Standing Committee on Publications from the research documents presented at meetings of the Council.

Apart from the *Journal of Northwest Atlantic Fishery Science* which contains peer-reviewed primary papers and notes on original research, the scope of *NAFO Scientific Council Studies* includes the publication of papers of topical interest and importance to the current and future activities of the Scientific Council, including contributions to special meetings and symposia, operational manuals for fisheries research, etc.

The seven previous issues of *NAFO Scientific Council Studies* are noted on the inside back cover of this volume.

15 April 1985
