

ANNUAL MEETING, 1965

Summary Of
ICNAF Statistics 3
(Statistics On Fishing Effort)
For The Year 1963

By: B. F. Calvin DeBaie

At the 1963 Annual Meeting the Subcommittee on Statistics recommended that the Secretariat, in consultation with a representative of the Statistics Subcommittee, prepare a format suitable for publication of these Form 3 data in the ICNAF List of Vessels publication, and summarize these data for a recent period of two or three years in the suggested format and circulate to member countries. The years selected were 1961 and 1962 since these were the most nearly complete for comparative purposes (Vide Document No. 2, Serial No. 1204 for the 1964 Annual Meeting). Prior to the year 1961 many of the member countries failed to submit the Statistics Form 3 with their annual statistics. The returns from the member countries for the years 1961 and 1962 numbered 10 and 11 respectively.

The data which follow are for the year 1963 and continue in this series. These data have been reported by 11 member countries and one non-member.

It should be decided at the 1965 Annual Meeting whether this sort of summary provides valuable information on the ICNAF fishing activity and where and how best to publish it.
